

Prevent the Spread of Covid-19

Keep your Mask Clean

When to wear a mask?

- When you are near people who you don't live with
- When it is hard to stay 6 feet away from people (ex. Grocery store, bus, laundromat church)

Good mask fit

- Covers mouth and nose and can be secured under the chin
- It should fit snugly on the sides of your face

How to wear a mask

- Wash your hands before wearing the mask
- Do not place mask on neck or forehead
- Do not touch mask, wash hands after touching the mask
- Safely remove the mask by
 - Only touching the ties of the mask
 - Do not touch eyes, nose or mouth
- For safe storage fold the outside corners together

#1 After removing your mask remember to wash your hands

2 Wash your mask after every use

How to wash my mask

- *Washing Machine*

Include your mask with your regular laundry
Use regular detergent and the warmest appropriate water setting

- *Hand washing*

Prepare color-safe bleach solution (1/3 cup color safe bleach solution per gallon of room temperature water) and soak in solution for 5 minutes. Rinse with room temperature

How to dry my mask:

- *Dryer*

Use the highest heat setting

- *Air Dry*

Place under direct sunlight whenever possible
Allow to completely dry
